Personal profile

MA in Political Science, Vanderbilt University. BA Political Science, Universidad de los Andes. With over 12 years of experience in data analysis for social science research, specializing in survey research, impact evaluation, audience and market research, I am dedicated to precision and delivering meticulously crafted, high-quality data. I currently work as a short-term consultant for the World Bank with the Kenya Analytical Program on Forced Displacement (KAP-FD). I am also working as an instructor at Universidad Javeriana. My expertise lies in survey research, encompassing comprehensive analysis and precise data management, as well as proficiently leading and coordinating data collection efforts across diverse research initiatives. I have experience in analyzing conjoint analysis to understand different revealed preferences using online surveys. I possess exceptional communication skills in both English and Spanish and have demonstrated strong leadership and management abilities in business, research, and educational settings.

Current positions

2023-today — **Short term consultant**. World Bank
As a short-term consultant for KAP-FD, I am part of the team that prepares and analyses data from a representative panel survey of refugee and host communities of 6000 households. My role includes creating analysis and preparing data for the team and the general public. I have also worked on preparing data for an RCT evaluating the impact of a cash transfer and psychosocial training program among refugees in Kenya. During this time, I also worked with the poverty team to estimate Proxy Means Test (PMT) scores to better target different poverty-reducing poverties in Senegal for which I developed Statasoftware that allowed the evaluation of different kinds of algorithms to estimate the PMT score.

2023-today — **Instructor**. Pontificia Universidad Javeriana
I teach the mandatory undergraduate course "Quantitative Research for International Relations". It is an introductory course to statistics, with an emphasis on causal inference and the use of the R statistical software.

Recent experience

2023-2024 — **Survey research expert**. Once Once
I worked for Once Once as an expert in survey research, in charge of developing questionnaires, tracking data collection, and preparing and analyzing such data.

2020-2023 — **Senior Researcher**. Sensata UX Research
As a Senior Researcher at Sensata UX, I led the full research lifecycle, from designing questionnaires to analyzing data using different methods, like Bayesian methods and conjoint analysis. Additionally, I developed R software package that streamlined data management and analysis, reducing delivery of different projects from several weeks per survey to a couple of days.

Other experience

2023   **Teacher** Social studies and philosophy (6th-11th grade). SEK international school. Chía, Colombia.

2019   **Short term consultant**. South Asia Data Lab. World Bank.

2015-2018   **Research Assistant**, Latin American Public Opinion Project (LAPOP), Department of Political Science, Vanderbilt University.

2017   **Instructor**. "Seminario de investigación." *Research Seminar* (Undergraduate) Universidad de los Andes. Bogotá, Colombia.

2014-2015   **Research Assistant**, Mitchell Selligson, Department of Political Science, Vanderbilt University.

2014   **Summer Research Assistant**, Kristin Michelitch,Department of Political Science, Vanderbilt University.

2010-2013   **Research Assistant**. Observatorio de la Democracia, Departamento de Ciencia Política, Universidad de los Andes.
